

# 01 iSV Series Integrated Servos

Leadtronker's iSV series integrated servos are one of the most compact servo systems available on the market. An iSV integrated servo has a servo motor (PMSM or BLDC optional) and an advanced DSP servo drive. At very compact size and with all components integrated, the iSV series servos can save mounting space, eliminate encoder connection and motor wiring time, increase reliability, and lower cable and labor cost. The drive takes step & direction, RS485 or CANopen commands, and is capable of outputting in position and fault signals back to the master controller or external devices for complete system controls.

## 1.1 Features

- **Highly Integrated**, Servo motor + advanced DSP servo drive
- FOC-SVPWM technologies
- Lower labor cost
- Lower cable cost
- Support step & direction, RS485 or CANopen commands
- Built-in pulse generator for the tuning and self-test
- Compact size, Save mounting space

## 1.2 Typical Applications

Suitable for small to medium automation machinery and equipment, such as large format printers, engraving machines, electronics manufacturing equipment, pick and place machines, packing machines, etc. Particularly suited to applications require high speed, high precision, high reliability, low motor noise and with DC power input at highly compact size.

Available time for the iSV42xx and iSV60xx is to be determined. Please contact Leadtronker or visit Leadtronker's website at [www.leadtronker.com](http://www.leadtronker.com) for the latest information about the iSV series integrated servos.

## 1.5 Operation Modes

### 1. Step & Direction

- Support step & direction and CW/CCW pulse commands
- Compatible with 5 to 24 V command signals

### 2. RS485

- One host up to 32 drives
- DLL is available for API function calling
- Can be used with either 2-wire (half-duplex) or 4-wire RS485 (full-duplex) implementation
- Easy to wire and build multi-axis systems

### 3. CANopen

- One host up to 127 drives
- Up to 1 Mbit/sec speeds possible
- CANopen standards: CiA Standard 301 (DS301), CiA Standard 402 (DSP402)
- Easy to wire and build multi-axis systems

#### Installation Notes:

- (1) Do not give strong impact shock to the motor shaft.
- (2) The motors are not water proof. Please contact Leadshine if you need a water proof product.
- (3) Keep the ambient temperature within the permissible temperature range (0 to 40 °C) for the product. Use force cooling method if necessary.
